Name: *Dolores Peak

State: Colorado

County: Dolores & San Miguel Cos.

Lat. 37. 50. 25. N

Long. 108. 05. 45. W

Sec. T. R.

Meridian:

Description:

*Dolores Peak: mountain peak with an elevation of about 13,290 feet, in the San Miguel Mountains, about 1.3 miles southeast of Middle Peak and 43 miles northeast of Cortez; Dolores and San Miguel Counties, Colorado; 37°50'25" N., 108°05'45" W. Not: Dolores Mountain [former decision], Dunn Peak [q.v.], Dunns Peak.

Not:

8 JUN 1965

6502

USGS-(Geology), Dolores Peak 1:24; submitted to establish correct location; 1906 decision revised; all current Federal sources show this as Dunn Peak and show Dolores Peak about 1.3 miles northwest of the recommended location; it is reported that Dolores Peak was erroneously placed on early maps and that this error has been perpetuated through the years; the Hayden Survey map of SW Colorado (sh. IX) shows the recommended location of Dolores Peak as does the tenth annual report of the Geological Survey on Plate XVI, pp. 194; in Uncompaghre NF.
